

# HOW TO INSTALL?

You need to go to the “Admin Panel/ Settings/ Update Application/ Update via ZIP File” and select the “plugin\_bundle.zip” file that is available inside the downloaded package (Installation folder) and click on the “Update” button.

You will get a confirmation message after installation.

Afterward, navigate to the admin panel, go to Settings > Update and click on the 'Update Database' tab. Then, click on the 'Run Update' button.

**Note:** It is important to ensure that the version of Rocket LMS Plugins Bundle you use matches the version of your website to avoid any compatibility issues.
